Expertise

Project Management: Proven track record in leading projects from conception through to completion, ensuring they meet quality, time, and budget requirements.

Leadership: Skilled in leading diverse teams, fostering a collaborative work environment, and developing talent through effective hiring and training programs.

Client Relations: Expertise in building and maintaining strong relationships with clients, architects, and engineers, ensuring their needs are met and projects are delivered to their satisfaction.

Safety Management: Dedicated to maintaining a safe work environment, enforcing strict adherence to health and safety regulations among all team members.

Strategic Planning: Adept at creating and implementing sales goals, operational targets, and strategic plans to drive business growth and operational efficiency.

PROFESSIONAL EXPERIENCE

Manager, OCP Construction Supplies Inc., North Bay, Ontario

- Led day-to-day operations ensuring efficient project management, client satisfaction, and team productivity.
- Collaborated with architects and engineers in the planning and design phases, advising on appropriate construction materials and methods to meet project specifications and standards.
- Implemented robust hiring and training programs to build a skilled and motivated workforce.
- Developed and executed sales and operational targets to achieve company goals, fostering a culture of excellence and continuous improvement.
- Prioritized workplace safety, enforcing strict compliance with health and safety regulations and promoting a culture of safety first.
- Provided technical support and guidance, ensuring compatibility and proper installation of products through frequent site visits and inspections.
